

Angel Yard Smoking and Vaping Policy

This policy is built on an initial paper dated May 2021 and an online member discussion in December 2022.

Angel Yard's smoking and vaping policy is designed to ensure that all residents can use their home and shared spaces and facilities safely and respectfully.

The policy is:

At Angel Yard

- Smoking and vaping are not allowed in any common areas either indoors or outdoors or in any pool cars.
 - Residents and visitors wishing to smoke or vape may do so in their own homes or a mutually agreed outside area for the purpose such as a smokers' area (see below).
 - When using the shelter or their own personal outdoor amenity space, smokers should be mindful of where wind may carry second hand smoke or vapour at all times and not cause a nuisance to neighbouring residents. Ashtrays should be emptied on a daily basis.
-

Notes

This policy assumes that properties' MVHR units do not introduce fumes or smells into neighbouring properties and do not exhaust into public spaces.

In planning the detail of the garden, a suitable design and location for a pleasant smokers' area needs to be borne in mind.
