

Angel Yard Pets Policy

This policy is built on an initial paper dated 17th July 2021 an online member discussion on 21st September 2022 and a final policy making meeting on 11th June 2024.

Angel Yard's pets policy is designed to ensure that all residents can use their home and shared spaces and facilities safely and respectfully.

The policy is:

At Angel Yard

- There are no restrictions upon in-house pets, so long as they do not unreasonably affect neighbours.
 - If members already have a pet they may bring them with them when they move into Angel Yard.
However:
 - pets should not go into the common house (apart from assistance dogs);
 - dogs should not use the shared garden, and be on a lead when within Angel Yard.
 - wherever possible, cat-owners should encourage the use of litter trays and share the task of on-site poo collecting.
 - Visitors who bring a pet should not stay overnight with it in the guest bedrooms, and should be subject to the same policy as residents regarding the common house and shared garden.
 - A pets committee is formed to deal with issues relating to all aspects of pet ownership at Angel Yard
 - Households that wish to acquire an outdoor pet after move-in, either as an addition or replacement, would need to consult with the pets committee beforehand.
-
